

GRAPEVINE PRICE LIST

THE ROOTED GRAPVINES we have to offer are of the highest quality, having been grown in an area that is free from both Phylloxera and Pierce Disease. They may be certified for shipment anywhere. Heavily rooted and with strong tops, they are first class in every particular.

Prices quoted are delivered, and we reserve the right to decide by what method they will be delivered. Small orders will be forwarded by Parcels Post, and all orders must be for a minimum of \$3.00 or more. Depending upon their destination, commercial orders will be forward either by truck freight—or will be delivered by our own trucks, if in an area where we make truck delivery.

Be sure to add 3% California Sales Tax to your order; and remember, the minimum order we can handle is \$3.00. If you wish to place less than a \$3.00 order, add 50c for postage and handling charges.
